Engineering Inspection Checklist - Single Family and Multiple Family Residential

Address and Permit No. \_\_\_\_\_

*Note: The Contractor is responsible for complying with all adopted construction codes. This checklist is designed to help you comply with those codes. It is not an exhaustive listing of code requirements and there may be other requirements not listed below which apply to your particular construction project. Refer to Chapter 6, City of Madison Code of Ordinances, for a complete list of adopted building and related codes.*

The following items must be corrected before you will be issued a Certificate of Occupancy for the above construction project.
